Career Objective

computer engineering student with experience in web development and app development, seeking opportunities to contribute technical skills in innovative projects and grow as a full-stack developer.

Education

Bachelor of Engineering in Computer Engineering
Gujarat Technological University

CGPA: 7.85/10

Technical Skill

- Programming Skills: Java, Python, C, C++, HTML, CSS, JavaScript, PHP, React, Node, Express, ReactNative.
- Database: MySQL, Mongo DB, SQLite.
- Tools: Github, VS code, Godot Engine, Android Studio, Postman.

Projects

Bluetooth Based Attendance System – ESP32, node, SQLite.

Mar 2025

In this system, nearby Bluetooth devices are scanned using ESP32, and attendance is marked in the database.

Small React Projects – React, Node.js.

Dec 2024 - Feb 2025

In React, I created multiple projects such as a to-do list, password generator, screen color toggle, login/register portal, etc.

Online Voting System Website – HTML, CSS, JavaScript, PHP.

Mar 2025

In this website, users first register and log in themselves. Then, they can create votes, cast votes, and view results.

QuickDesk(Support Ticket Management)– MERN Stack.

Aug 2025

Engineered a secure, full-stack MERN help desk with a role-based architecture (Admin, Agent, User) and JWT authentication. Implemented a RESTful API for complete ticket management, including file attachments via Cloudinary.

Languages

Gujarati, Hindi, English.
